

## **If Duchamp Drew Beautifully**

Robert Edgar  
2005

The thing about bridges is...

well, ya know

you'll descend on

the other side.

The thing about life is...well, ya know...

It's a bridge.

While the shortest path between

us is a straight line

Only factory workers move from

day to day, that way.

The thing about chance is...ya know

A lifetime of dice rolls

Never produced a single 3-chord blues.

The thing about chance is... well, ya know...

It's a cage...

And computers can draw both mechanical  
lines

And lines flowing between thin and thick  
Finally rising like some heaven-headed sign.

The thing about youth

Is ...ya know

It so often confuses

meaning with truth

And the thing about aging is... well, ya  
know...

It's a life.

If Duchamp drew beautifully

His waterfall would descend wetly.

If Duchamp drew beautifully

His waterfall would descend wetly.

...if Duchamp drew beautifully.
